Business men can't get along without advertising. If they sell the people must know what they have and they can use the ADVOCATE columns to advantage. The question of popularity of men and acquaintance-ship is of the past. It is now cold business, goods and their values, and he who buys a large stock and then waits for the people to come in without advertising his goods is the man that gets left. Place your advertisement now if you want to keep up with the world's rush for business.

"Let parents not live for their children but with them." The mother should not allow any false modesty to stand in the way of her daughter's knowledge of herself, of her possibilities, of her perils. For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots and builds them up. A woman who would understand herself should send 21 cents to the World's Dispensary, Buffalo, N. Y., for Dr. Pierce's Medical Adviser, a book of 1008 pages.

Steel vs. Cast Iron.

Steel has superseded iron in all structural work where the greatest strength and durability are required. The old-fashioned cast-iron stove has made way for the

Majestic Range

which is made of cold-rolled steel (the strongest steel) and malleable iron (iron that by an expensive process, is made unbreakable), and the whole construction is riveted by hand (the honest way).

The Majestic is built on honor to last the user a lifetime—a long lifetime.
